

National Overdose Prevention Lifeline

1-800-484-3731

Meeting people where they are, on the other end of the line, one human connection at a time. No judgment. No stigma. Just love!

Never Use Alone

If you use drugs, always using with someone is a great way to prevent overdose deaths. If you do not have someone to use with, Never Use Alone Inc. is a resource that will connect you by phone to a peer who has lived experience with substance use. This person will take your name and location, and if you stop responding for more than 30-45 seconds during or after using, they will call EMS services for your area.
